PREFACE

The first instalment of *An Alphabetical List of Manuscripts in the Oriental Institute, Baroda* is now presented to all lovers of Ancient Indian Culture as No. XCVII of the *Gaekwad's Oriental Series*. The volume covers 7,352 entries of manuscripts and is divided into 13 sections. It is prepared from the card index as it exists in the library of the Oriental Institute, with occasional corrections and modifications consequent on a closer examination of a few of the original manuscripts.

It will not be out of place here to recall the history of the manuscripts library at the Oriental Institute which, like all other cultural institutions in Baroda, owes its origin to the foresight and the innate love for oriental culture of the illustrious ruler the late Maharaja Sayaji Rao III Gaekwad. The manuscripts library came into being in an humble and unostentatious manner as a small but important section of the Central Library in the second decade of the present century. The section grew under the fostering care of the late Maharaja Saheb and his wise advisors until in 1915 the publication of rare and unique manuscripts in a special series, to be called the *Gaekwad's Oriental Series*, was added to the activities of the Sanskrit section which, till then, functioned as a mere repository of handwritten manuscripts and printed Sanskrit books. It was in 1916 that the *Gaekwad's Oriental Series* made its first publication with a charming and valuable work, the *Kāvyamīmāṁsā* of Rājaśekhara who belonged to the latter part of the 9th century A. D. The book proved so popular that it went through three editions by the year 1934.

As a consequence of its growing importance the Sanskrit section was separated from the Central Library and made into an independent Oriental Institute in the year 1927, in order to extend to the institution opportunities for an autonomous development. Moreover, the rapidly growing activities of the section made the necessity of a separate administrative machinery quite obvious. The importance of the newly founded Oriental Institute was further augmented when by a special order of Government the publication of Marathi, Gujarati and Hindi books of the State was also entrusted to it in 1931.

When these lines are being written, the *Gaekwad's Oriental Series* has to its credit no less than 97 original works, covering many thousands of pages of original matter, throwing extensive light on various obscure branches of oriental learning and culture. The Series has thus served uninterruptedly since 1916 the cause of oriental scholarship under the active patronage of the late Maharaja Sayaji Rao III Gaekwad, and his worthy grandson and illustrious successor, the

Funding by IKS-MoE

CC-0. Agamnigam Digital Preservation Foundation, Chandigarh.

present ruler of Baroda, His Highness the Maharaja Sir Pratap Sinha Gaekwad who, within the last few years, has become, like the Wishing Tree, a resort of learned men and institutions for all varieties of encouragement and patronage.

Amongst the benefactors of the oriental studies in Baroda, it is our duty to mention the name of the present Prime Minister of the State, Sir V. T. Krishnamachariar, Kt., K. C. I. E., whose love and active sympathy for all cultural activities of the Baroda State in general, and oriental learning in particular, is almost unparalleled in modern times. To Sir Manubhai N. Mehta the ex-Prime Minister, in whose time the Series was inaugurated, we are grateful for all the encouragement given by him to our endeavours in the past.

The manuscript collection, here catalogued, started sometime in 1912, and it now numbers 13957 manuscript bundles. This includes one fairly large collection of 1610 manuscripts from the Baroda Vitthala Mandir and another of 446 manuscripts acquired from the late Pandit Yajnesvara Shastri of Baroda. The bulk of the collection, consisting of nearly ten thousand manuscript bundles, however, is the result of the work of the energetic and indefatigable Pandit R. A. Shastry who toured all over India acquiring manuscripts under orders of Government for well nigh seven years.

As the manuscripts were entered in the permanent registers, index cards were prepared with the accession number and a brief description. These were classified under different subjects, and were placed in convenient cabinets in an alphabetical order under each subject. These index cards cannot be considered entirely satisfactory when viewing from the exacting standard of a cataloguer, since they are not always free from defects either in description or in classification. Since this alphabetical list is mainly based on the card index, it should not be taken by scholars as perfect, but only as providing a workable guide to the contents of this great library which, today, occupies one of the front ranks amongst manuscript libraries in India.

While publishing the first volume of the *Descriptive Catalogue of MSS in the Central Library, Baroda* in 1925 as No. 27 in the *Gaekwad's Oriental Series*, the present writer expressed a hope that the descriptive catalogue in twelve volumes would be brought to a completion at an early date. But this proved later to be too optimistic. As the work progressed, and as the members of the staff were gradually engaged in the more difficult work of preparing editions of original Sanskrit works, the work of compiling the descriptive catalogue could not proceed at a speed as originally contemplated. The talented Srauta Pandit Ramaswami Shastri Siromani was the only member of the staff who was detailed for this work with scanty literary assistance that we could afford, and as such, the speed of the descriptive catalogue grew slower as time passed and belied all expectations. Furthermore, as the manuscripts were minutely examined, greater and greater difficulties were encountered, and more and more unique and rare manuscripts

Funding by IKS-MoE

CC-0. Agamnigam Digital Preservation Foundation, Chandigarh.

were discovered, requiring complete description in the Appendix, as the second volume of the descriptive catalogue just published as No. 96 of the *Series*, would testify. Thus, since the end of the descriptive catalogue could not be foreseen, it was proposed to Government to employ a special officer who may at first[1] prepare a nominal catalogue of the whole collection, and then take up individual volumes of the descriptive catalogue, in addition to the work done by the Srauta Pandit. The Government of Baroda graciously sanctioned the proposal, and as a result, a good scholar from Malabar was appointed as Catalogue Assistant. Soon after joining, he quickly completed the press copy of the whole catalogue, and started printing the first volume which is now completed.

It is hoped that this volume will provide outside scholars with adequate information regarding our manuscripts, and will keep a permanent record of the contents of the manuscript library of the Oriental Institute. It is also expected that the present compilers of the *New Catalogus Catalogorum* at the Madras University, will derive ample manuscript material for insertion in their catalogue, and thus make it fuller and more useful. It would, however, be our earnest endeavour to bring out the second volume with as much expedition as possible, if nothing untoward happens in the meantime. It is further proposed to include in the second volume a complete index of works, commentaries and authors, even though, the arrangement of this catalogue is alphabetical under each subject. This addition of a complete index is believed to be necessary in order that the catalogue may prove more useful for consultation.

Lastly, it is not without interest to point out here certain difficulties that are faced in preparing this List. The first is relating to titles. As already well known it is a habit with our ancestors to mention the same work under two or more titles. For instance, the work *Nyāyasiddhāntadīpa* is known by both this title and the *S'aṡadharīya*. In cases like these which are abundant, the different titles have been brought under one head, but it is quite conceivable that a few may have escaped the vigilance of the cataloguer. Moreover, there are certain works which are differently classified by different scholars. One prominent instance on this point, is the *Pavanavijaya*, which is sometimes brought under Yoga and sometimes under Jyotiṣa. Here it is brought under Yoga as its contents are more akin to Yoga practices than to forecasts. Another instance of the same kind is the work *Triveṇikā* which is placed both under Vyākaraṇa and Alaṁkāra. The work here is brought under Alaṁkāra because it deals with Sabdavyāpāra and Kāvya. The *Brahmatarkastava*, although a Stotra work, is found in the card index under Saiva Vedānta. The work is kept in the list where it was originally found without a change. Under the head of classification, therefore, the list is not altogether free

1 This work was originally entrusted to the then Superintendent, Printed Section, Mr. K. Rangaswami, a brilliant and energetic scholar, whose untimely death in 1935 brought the work to a standstill.

Funding by IKS-MoE

CC-0. Agamnigam Digital Preservation Foundation, Chandigarh.

from criticism. The work, therefore, goes out to the world of scholars with all its imperfections, although it is not devoid of its obvious advantages.

This alphabetical list is divided under thirteen heads or subjects. These are:—

(1) Veda; (2) Vedalakṣaṇa; (3) Upaniṣat; (4) Śrauta Sūtra and Prayoga; (5) Gṛhya Sūtra and Prayoga; (6) Dharma Sūtra, Prayoga and Śāstra; (7) Smṛti; (8) Vedānta Darśanas, viz., (i) Advaita, (ii) Viśiṣṭādvaita, (iii) Paramādvaita, (iv) Śuddhādvaita, (v) Dvaitādvaita, (vi) Dvaita, (vii) Śaiva Vedānta, and (viii) Sāmānya Darśana; (9) Sāṅkhya; (10) Yoga; (11) Nyāya; (12) Mīmāṁsā, and (13) Vyākaraṇa.

There will probably be some who will not approve of this classification, and there will be others, who would advise adopting some other classification system, such as, that of the India Office, London, or of the Royal Asiatic Society of Bengal, or even of the Tanjore Palace Library. It is, therefore, necessary to point out that the classification here adopted is the one which was found convenient when the library originated, and grew naturally with the growth of the manuscript collection. In the present list it was not possible to modify in any way the original classification without disturbing the arrangement of the many thousands of cards comprising the index. But while passing, it may be remarked that the different methods of classification, now in vogue in the numerous manuscript libraries or manuscript catalogues, do not agree with one another, nor are they free from inherent defects. It is, therefore, of the utmost importance to manuscript libraries to devise a scheme of classification which may be regarded as the National Scheme of Classification of MSS, and may be adopted by all manuscript libraries in India and elsewhere, as well as in all catalogues of manuscripts. It is needless to add that the scheme so made should be entirely free from defects, easy to operate, and all comprehensive, in order that it may meet with universal acceptance.

Finally, we have to thank the energetic and young Catalogue Assistant, Mr. Raghavan Nambiyar Siromani, for having prepared the complete alphabetical list with reasonable care and expedition, and for seeing the first volume through the press within a short time.

Baroda, the 29th September 1942.

SELECT OPINIONS

Sylvain Levi: The Gaekwad's Series is standing at the head of the many collections now published in India.

Asiatic Review, London: It is one of the best series issued in the East as regards the get up of the individual volumes as well as the able editorship of the series and separate works.

Presidential Address, Patna Session of the Oriental Conference: Work of the same class is being done in Mysore, Travancore, Kashmir, Benares, and elsewhere, but the organisation at Baroda appears to lead.

Indian Art and Letters, London: The scientific publications known as the "Oriental Series" of the Maharaja Gaekwar are known to and highly valued by scholars in all parts of the world.

Journal of the Royal Asiatic Society, London: Thanks to enlightened patronage and vigorous management the "Gaekwad's Oriental Series" is going from strength to strength.

Sir Jadunath Sarkar, Kt.: The valuable Indian histories included in the "Gaekwad's Oriental Series" will stand as an enduring monument to the enlightened liberality of the Ruler of Baroda and the wisdom of his advisers.

The Times Literary Supplement, London: These studies are a valuable addition to Western learning and reflect great credit on the editor and His Highness.
